PREFATORY NOTE.

The time has come when a person of even ordinary attainments is expected to have some knowledge of General History. This branch is exceedingly vast in its scope, and the student often feels in need of a concise, yet comprehensive, and easily accessible work on this subject which heretofore he has been unable to find. This volume has been prepared to meet this want, and being the eighth book of this "Series," and having the same plan and arrangement, success no doubt will be realized. As one of the Series is entirely devoted to the History of the United States, this volume has been confined mostly to the Great Eastern Empires. The Promiscuous Questions cover a great deal of ground that is impossible to make mention of in the contents.

Davis, 1585-7. Baffin, 1616. Behring, 1741. Mackenzie, 1789. Parry, 1818, and Sir John Franklin, the same year. They returned after reaching latitude 80° 34′ but renewed the effort the next year

300. What was the result of their second voyage?

Parry came so near the Magnetic Pole that his compass was useless, and passed beyond the 100th meridian, thereby receiving the reward of Parliament of \$25,000.

301. Who made the next important voyage?

Ross renewed the effort and discovered the Magnetic Pole in latitude 70° 5′ 17′′ and longitude 96° 46′ 45″۰

302. What fatal disease attacked his crew?

Scurvy, to such an extent that he had to abandon his ships.

303. What became of Sir John Franklin?

After several expeditions to different places, he prepared for another journey to the North, and on May 19, 1845, set sail with two vessels, the Erebus and the Terror. On July 26, 1845, the two steamers were sighted by a whaleship in latitude 74° 48′ and longitude 66° 13′ anchored to an iceberg. This is the last time either of the vessels were ever seen. The crews were all lost, and relics of the crew and vessels were afterward found by different explorers.

304. What important paper was found by Captain Mc Clintock? A paper was found bearing date of May 28, 1847, stating that they were all well, and on the margin of which was a note bearing date of April 25, 1848, stating that Sir John Franklin had died June 11, 1847, and that the total loss up to that time amounted to twenty-four persons.

305. What was the important expedition of 1877?

That organized by G. W. DeLong of the United States Navy, the expenses of which were provided by James G. Bennett, of the New York *Herald*.

306. What was the name of the vessel?

It was named Jeannette, in honor of Mr. Bennett's sister.

307. When did the Jeannette start on her voyage? On the 8th of July, 1879.

308. What became of the vessel?

It was caught in the icebergs on June 12, 1881, and crushed so badly that it sank.

309. What became of the crew?

The crew escaped from the sinking vessel, and also saved all their provisions.

310. What finally became of the explorers?

DeLong and nearly all of his party died from fatigue and exposure, and their bodies were finally brought home from near the delta of the Lena river on the frozen shore of Siberia.

311. Of all the Arctic expeditions, which one was most fruitful of scientific discoveries?

The Greely Expedition, which was organized at the expense of the government of the United States.

312. Who were instrumental in securing the appropriation from Congress?

General Hazen, of the Signal Service Department, and A. W. Greely, Assistant to the chief signal officer.

313. How many men composed the organization of the expedition?

Officers and men in all twenty-four, who were chosen from different branches of the army.

314. Who were the men who composed the party?

F. B. Kislingbury, J. B. Lockwood, Dr. O. Pavey, E. Israel,
W. S. Jewell, G. W. Rice, D. C. Ralston, H. S. Gardiner,
W. H. Cross, D. L. Brainerd, D. Linn, N. Nalor, J. Elison,

On July 7, 1881, from St. Johns, Newfoundland.

316. What was the name of their vessel?

The Proteus.

317. Where was the first landing made?

At Upernavik on July 24, where they remained five days.

318. What Fort did Lieutenant Greely establish?

Fort Conger, which he named in honor of Senator Conger, of Michigan. At this fort everything needed was provided and provisions sufficient for two years.

319. What was the furthest point north reached by the explor-

ing party?

On May 13, 1884, Lieut. Lockwood and Sergeant Brainerd reached Lockwood Island, latitude 83° 24′ north, and longitude 44° 5′ west.

320. What did they observe to the north of them?

North and north-west the Polar Ocean was seen, and to the north-east land, which they named Cape Robert Lincoln, latitude 83° 35′.

321. What was the result of the Greely expedition?

Great suffering and death reduced their mumber, till when they were finally rescued only Greely and six of his men were found alive.

- 322. What is the highest point ever reached by man?
 That of the members of the Greely Expedition, 83° 24'.
- 323. From the observations of the explorers what is the belief in regard to the North Pole?
 - They express the belief that around the pole there is an open sea, where the temperature is not so so severe as it is some distance from the pole.
- 324. What has been the result of explorations into the Antarctic regions?
 - Navigators have never succeeded in getting as far south as they have north, on account of the climate being more severe.
- 325. Why is it colder at the South Pole than it is at the North Pole?
 - On account of the great extent of water in the region of the South Pole and the absence of land areas.

THE POCKET GEM PRONOUNCING DICTIONARY,

BY LILLA M. TENNEY.

On a new plan. The most useful Pocket Dictionary ever issued.

IN PREPARATION.

THE WORK OF YEARS OF STUDY AND RESEARCH.

Most excellent in scholarship. Most practical in all ways. Most artistic in point of manufacture. Beautifully bound from special artistic cover designs. Beautifully printed at the celebrated UNIVERSITY PRESS of JOHN WILSON & SONS, Cambridge, Mass.

A SPELLING AND PRONOUNCING DICTIONARY, RATHER THAN A DEFINING ONE.

It has over eleven thousand words, with the pronunciation indicated in a simple manner by a new system of diacritical marks, specially east for this book.

The New Imperial, Webster, Stormonth, Worcester and all other standard Dictionaries have been constantly consulted and critically compared in its preparation.

ITS OBJECT.

While not underrating the primary importance of definition and philology in a work of reference, it is believed—nay, more than that phinology in a work of retrience, it is detected. hay, note that that it is known that there is a positive demand for a book showing the correct pronunciation and spelling of every prominent word in the language, which book should be in a convenient portable form for the pocket, the writing-case, or the reading-table. This is the first time that any serious attempt has been made to satisfy this call.

ITS TRUSTWORTHINESS.

In this respect, recognizing that what was wished for was not originality, but confidence in the accuracy of the book; the labor, while almost endless, has been strictly confined to critical comparisons of authorities and the proper adjustment of differences of opinion.

HOW WE OFFER IT FOR SALE,

On receipt of price, FIFTY CENTS, (and as compared with the prices of most other books it would be well worth \$1.00.) we will forward it to any address in the United States for examination. If not satisfactory it may be returned, when the money will be refunded; provided, of course, it is received in good order and within reasonable time.

PUBLISHING DAY.

It will be published about August 1st. ISSS. The great amount of labor involved in its preparation, as compared with its small size, requires this delay.

MARYELO JSLY COMPLETE, WONDERFULLY COMPACT,

Most useful Small Dictionary ever made.

It is needed by every Office Man, every School Teacher, every Stenographer every Tourist, every Letter Writer, every Pupill every literate, and certainly every illiterate person throughout the length and breadth of our entire land.

PHOROGRAPHY.

A BRIEF AND LEGIBLE SYSTEM OF SHORTHAND.

HOSE unacquainted with Phonography can not readily appreciate the ease with which it may be mastered, and the delight incidental to the unfolding of its principles "Fascinating" is the word used in describing it by every one who has studied the art. The text-books hav been so arranged and simplified that Selj-instruction is a positive pleasure and recreation and has been successfully accomplished in thousands of instances.

TEACHERS should learn Phonography, not only that they may be possessed of the enormous advantage of being able to write five times as fast as by the ordinary method, but that they may be able to teach the art. Phonography is rapidly finding its way into the Public Schools, and the demand for teachers of the regular branches who can also teach Phonogra-

phy is now far in advance of the supply.

THE MANUAL OF PHONOGRAPHY. [200th Thousand.] By BENN PITMAN and JEROME B HOWARD. This work is designed for self-instruction in the phonographic art and is the proper book for the beginner. It contains a complete exposition of the system, from its simplest principles to the Reporting Style, arranged in alternate and opposite pages of explanation and phonographic exercises. Every principle is copiously illustrated with engraved examples for reading, and exercises in the ordinary type for writing practice. A large number of pages of engraved reading matter ar included in the book. Boards, 80c.; Extra cloth, \$1.00.

For sale by all booksellers, or sent post-paid by us on receipt of price. Complete catalog of other aids to the study of Phonography, free.

THE PHONOGRAPHIC MAGAZINE. Edited by JEROME B. HOWARD. A twenty-four page monthly, each number of which contains eight pages (5¾ x 8½ in.) of finely engraved Phonography, mostly in the brief Reporting Style, besides original and contributed articles of general phonographic interest. The Magazine is a periodical complement to the series of textbooks, and is the authentic organ of the Benn Pitman System of Phonography. Subscriptions may begin with any number. Specimen copy free. Price, per annum—invariably in advance—\$1.50.
